Context

Welcome to the application form for Short-term projects for mobility of learners and staff in school education (KA122-SCH)

Please verify that your organisation is eligible for the field you have chosen. If you are not certain which field you can apply for, you should contact your National Agency for advice.

Field of application	School Education			
Project title	Innovating Education through European Mobility Experiences			
Project start date (dd/mm/yyyy)	Project duration	Project end date (dd/mm/yyyy)	National agency of the applicant organisation	Language used to fill in the form
30/09/2026	18	29/03/2028	IT02 - Agenzia Nazionale Erasmus + - INDIRE	English

Rules on number of participations: according to the Erasmus+ Programme Guide, within a period of any five consecutive call years, an organisation can receive a maximum of three grants for short-term projects in the same field (adult education, school education, or vocational education and training). Grants received in the 2014-2020 period do not count towards this limit.

If you would like to participate in Erasmus+ each year, please consider applying for an accreditation.

Project summary

Please provide short answers to the following questions to summarise the information you have provided in the rest of the application form.

Please use full sentences and clear language. In case your project is accepted, the summary you provided will be made public by the European Commission and the National Agencies.

i. Background: Why did you apply for this project?

The Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan applied for this project to strengthen its European dimension and provide students and staff with concrete international learning experiences. The project responds to the need to enhance linguistic, intercultural and pedagogical competences and to develop a structured approach to European cooperation through a manageable short-term Erasmus+ mobility project.

ii. Objectives: What do you want to achieve by implementing the project?

The project aims to improve students' linguistic and intercultural competences through a group mobility experience in Spain and to enhance teachers' professional skills through participation in a structured training course in Finland. By combining learner and staff mobility, the project seeks to promote European citizenship, innovation in teaching practices and the overall quality of education within the school.

iii. Results: What results do you expect your project to have?

The project is expected to result in improved foreign language skills, intercultural awareness and motivation among participating students, as well as enhanced pedagogical competences and innovative teaching approaches among teachers. The dissemination and integration of results will contribute to a positive and lasting impact on the whole school community and support the school's long-term internationalisation.

My organisation plans to work with other supporting organisations that are not going to host our participants, but are going to help with the implementation of activities.

No

A supporting organisation is an organisation assisting your organisation in practical aspects of project implementation that do not concern core project tasks (as defined in the [Erasmus quality standards](#)). Please note that hosting organisations that provide learning content and mentoring to your participants are not considered supporting organisations, unless they are at the same time supporting you in your other project management activities.

If you plan to work with a supporting organisation, you must declare it here. If you want to add a supporting organisation to your project later on during implementation, you will have to request a formal amendment of your grant agreement.

Background

In this section you should answer the question: "Who are you as an organisation?"

If you are applying on behalf of a larger organisation with multiple departments or sections, it is important that you clearly describe the structure of the entire organisation and explain which parts of the organisation are working in the field covered by this application. The field of the application is stated in the section 'Context'. It can be adult education, vocational education and training, or school education.

The following information is completed based on the information linked to your organisation identification number (OID):

Profile

Is the organisation a public body?

Yes

Is the organisation a non-profit?

Yes

Please choose the organisation type that best describes your organisation.

Type of organisation

School/Institute/Educational centre – General education (secondary level)

Please briefly present your organisation.

i. What are your organisation's main activities? What kind of learning programmes is your organisation offering? If your organisation is providing more than one educational programme, please specify which of those programmes belong to the field of this application.

The Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan is a public upper secondary school whose main activity is the provision of formal education at secondary level.

The school offers two main learning programmes: the Scientific upper secondary curriculum and the Linguistic upper secondary curriculum. Both programmes belong to the field of school education and are fully relevant to this application. The Scientific curriculum includes a traditional scientific pathway as well as enhanced programmes with a strong focus on mathematics, sciences and international perspectives. The Linguistic curriculum focuses on the study of foreign languages and cultures, promoting multilingualism and intercultural understanding. Through these programmes, the school aims to provide students with solid academic preparation, develop transversal competences and support personal growth, preparing learners to continue their studies and to actively participate in a European and global society.

ii. Please describe the learners attending learning programmes at your organisation. What are their profiles and age groups? In particular, please mention if you are regularly working with participants with fewer opportunities, and how?

The learners attending the Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan are upper secondary school students aged between 14 and 19 years. Students are enrolled in either the Scientific or the Linguistic curriculum and generally show good motivation towards learning, particularly in the areas of languages, sciences and international subjects. The school population is heterogeneous in terms of learning styles, academic interests and personal backgrounds. The school regularly works with students with fewer opportunities, including learners with special educational needs, learning difficulties and socio-economic disadvantages. In these cases, personalised learning pathways, individual educational plans and specific support measures are implemented in accordance with national regulations. The school promotes inclusion through targeted teaching strategies, tutoring activities, counselling services and close cooperation between teachers, families and support staff, ensuring equal access to learning opportunities and participation in school life, including international mobility activities.

iii. How many years of experience does your organisation have implementing these learning programmes?

2

What is the size of your organisation in terms of number of learners and staff? If your organisation is working in more than one field of education and training, please only include learners and staff in the field of this application.

Number of learners	800
Number of teaching staff	90
Number of non-teaching staff	24

Past participation

Action Type	As Applicant		As Partner or Consortium Member	
	Number of project applications	Number of granted projects	Number of project applications	Number of granted projects
School education staff mobility (KA101)	0	0	1	0
Newcomer organisation	Yes			
Less experienced organisation	Yes			
First time applicant	Yes			

Would you like to make any comments or add any information to the summary of your organisation's past participation?

The Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan has long-standing experience in delivering upper secondary education programmes in the field of school education.

With regard to the Erasmus+ Programme, the school has previously applied once for accreditation as a coordinating organisation, although the application was not successful. However, the school has gained valuable experience by participating in several Erasmus+ projects as a partner and hosting organisation within Key Action 1 and Key Action 2 projects.

Through these experiences, the school has actively contributed to mobility activities, international cooperation and the implementation of European educational projects, developing practical skills in project management, hosting participants and international collaboration.

This background represents a solid foundation for the implementation of a short-term mobility project under KA122-SCH, allowing the school to take a further step towards a more structured participation in the Erasmus+ Programme.

Project objectives

What are the most important needs and challenges your organisation is currently facing? How can an Erasmus+ mobility project help improve your organisation for the benefit of all of its learners? Please illustrate your answers with concrete examples.

One of the main challenges currently faced by the Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan is the need to further strengthen the international dimension of its educational offer in a structured and sustainable way. While the school promotes foreign language learning and intercultural education within the curriculum, students have limited opportunities to experience real international learning contexts.

Another important challenge concerns the continuous professional development of teachers. In a rapidly changing educational environment, there is a growing need to update teaching methodologies, particularly in relation to student-centred learning, inclusion and active learning approaches.

An Erasmus+ mobility project represents an effective response to these needs. Student mobility allows learners to develop linguistic, social and intercultural competences through direct experience in a European educational context, increasing motivation and awareness of European citizenship. For example, a group mobility to Spain will enable students to use foreign languages in authentic situations and to compare different school cultures. Staff mobility, through participation in a structured training course abroad, will provide teachers with concrete tools and innovative pedagogical approaches that can be transferred into everyday teaching practice. The dissemination of acquired competences within departments and collegial bodies will ensure that the benefits of the project extend to all learners, including those who do not directly participate in the mobility activities.

Please define the objectives your organisation wants to achieve by implementing this Key Action 1 mobility project. Your objectives should be concrete, realistic, and should represent a real benefit for your organisation and its learners.

List of objectives

Number of objectives : 4

Objective 1

Title

What do you want to achieve?

Strengthening linguistic, intercultural and pedagogical competences through European mobility

Explanation

Which needs and challenges described in the previous question are addressed by this objective, and how?

This objective directly addresses the school's need to strengthen its international dimension and to promote innovation in teaching and learning.

Student mobility will provide learners with the opportunity to experience learning in a European context, use foreign languages in real-life situations and develop intercultural awareness and social competences.

Staff mobility will allow teachers to acquire new pedagogical approaches and innovative methodologies through a structured training course, supporting the introduction of student-centred and inclusive teaching practices.

By combining learner and staff mobility, the project aims to create a lasting impact on the quality of education offered by the school, benefiting both direct participants and the wider school community.

Measuring success

How are you going to evaluate if the objective has been reached?

The achievement of this objective will be measured through:

feedback and evaluation questionnaires completed by students and teachers;

observation of improvements in students' language use, motivation and participation;

certificates of attendance and reports produced by teachers after the training course;

dissemination activities and the integration of acquired competences into teaching practices and school planning.

Objective 2**Title**

What do you want to achieve?

Strengthening international cooperation and the European dimension of the school

Explanation

Which needs and challenges described in the previous question are addressed by this objective, and how?

This objective addresses the school's need to move from occasional international experiences towards a more structured and strategic approach to European cooperation.

Through student mobility in Spain, and the teachers mobility in Finland the school aims to foster openness towards other cultures and educational systems, encouraging students to perceive themselves as active European citizens.

At the same time, staff mobility will support teachers in building professional networks with European colleagues and exchanging good practices, contributing to the gradual development of a shared European educational space.

The project will help the school consolidate experience in international project implementation and lay the foundations for future participation in Erasmus+ actions, including more structured and long-term cooperation projects.

Measuring success

How are you going to evaluate if the objective has been reached?

The achievement of this objective will be measured through:

- the establishment and maintenance of cooperation with European partner organisations;
- the involvement of teachers and departments in international and European-oriented activities;
- the inclusion of internationalisation objectives and mobility experiences in school planning documents;
- the quality and scope of dissemination activities carried out within and outside the school.

Objective 3**Title**

What do you want to achieve?

Promoting inclusive education and equal access to international opportunities

Explanation

Which needs and challenges described in the previous question are addressed by this objective, and how?

To promote inclusion and ensure equal access to international learning opportunities for all students, including those with fewer opportunities, while fostering a supportive and inclusive school environment. This objective responds to the school's commitment to inclusion and equal opportunities in education. While international mobility offers significant educational benefits, not all students have the same access to such experiences due to socio-economic, learning or personal barriers.

Through this project, the school aims to adopt transparent and inclusive selection procedures and to provide appropriate support measures that enable students with fewer opportunities to participate in mobility activities.

Student mobility will contribute to strengthening self-confidence, social skills and motivation, particularly for learners who may benefit most from international exposure. At the same time, staff mobility will support teachers in developing inclusive and student-centred teaching app

Measuring success

How are you going to evaluate if the objective has been reached?

The achievement of this objective will be measured through:

- the participation of students with fewer opportunities in mobility activities;
- feedback from participants and families on the inclusiveness of the project;
- the effectiveness of support measures implemented before, during and after mobility;
- the integration of inclusive practices into teaching methodologies and school policies.

Objective 4**Title**

What do you want to achieve?

Enhancing teachers' professional development through structured training in Finland

Explanation

Which needs and challenges described in the previous question are addressed by this objective, and how?

To enhance teachers' professional competences by enabling them to participate in a one-week structured training course in Finland, focused on innovative, student-centred and inclusive educational methodologies. This objective addresses the school's need to invest in continuous professional development and to innovate teaching practices in line with European educational standards. Finland is widely recognised for the quality of its education system and for its learner-centred, inclusive and competence-based approaches. By attending a structured training course in Finland, participating teachers will have the opportunity to acquire new pedagogical tools, explore innovative teaching strategies and reflect on their own professional practice in an international context. The knowledge and competences gained during the training will be transferred to the school through dissemination activities, peer-to-peer sharing and integration into curriculum planning.

Measuring success

How are you going to evaluate if the objective has been reached?

The achievement of this objective will be measured through:

- certificates of attendance and learning outcomes documented by participating teachers;
- reflective reports and presentations delivered during dissemination meetings;
- evidence of the application of new methodologies in classroom practice;
- feedback from colleagues and students on the introduced teaching innovations.

What topics are you going to work on in your project?

Teaching and learning of foreign languages

Democracy and inclusive democratic participation

Activities

Please choose the types of activities you would like to implement in your project and complete the details for the activities you have chosen, please open each type of activities from the table below by clicking on their name.

In this table and in the specific summary tables below you can see the overview of the information you have provided.

Before completing this table, make absolutely sure that you are familiar with descriptions and rules of each activity type as presented in the Erasmus+ Programme Guide. It is best to complete the table with the Programme Guide open.

Activity type	Number of participants	Total duration for participants (in days)	Number of accompanying persons	Total duration for accompanying persons (in days)	Total Grant (EUR)
Short-term learning mobility of pupils	15	10	2	10	27 743,00
Courses and training	6	10	0	0	11 526,00
Total	21	20	2	10	39 269,00

Short-term learning mobility of pupils

In this part of the application form, you need to create a list of participants and groups of participants that you plan to involve in Short-term learning mobility of pupils . These details will serve to assess your proposal and to calculate the needed budget.

The proposed planning should give a realistic representation of what you intend to implement. Of course, all plans must evolve. During implementation you will be allowed to change details such as destinations, the number of participants and duration of activities, as long as you continue working towards the same objectives.

The purpose of this section is to calculate the budget needed to implement your planned activities. You can use the button below to read the detailed funding rules and better understand the calculations below. The section introduces an important new concept: 'Mobility flow'. A mobility flow is a participant or a group of participants going to the same destination for the same duration of time and with same arrangements. If some participants going to the same destination need to have different arrangements (for example, different travel distance or mode of travel, different duration, Blended mobility activities, etc.) then you should split that mobility flow into two or more separate ones to be able to specify the differences. It is allowed to have more than one flow going to the same destination.

The information that you provide in this table will be automatically copied in the budget details. You can come back to this table at any point in case you want to change the data or separate a mobility flow into two.

Mobility flow ID	Destination country	Number of participants	Duration (in days)	Number of accompanying persons	Duration for accompanying persons (in days)
SHORT-01	Spain	15	10	2	10
Total		15	10	2	10

Mobility flow ID	Destination country	Number of participants	Participants with fewer opportunities	Blended mobility	Sustainable means of transport (green travel)
SHORT-01	Spain	15	4	☐	☐
Total		15	4		

Description (Short-term learning mobility of pupils)

Finding partner organisations for your mobility activities

Erasmus+ provides various tools and opportunities to find partners for your mobility activities:

- **European School Education Platform (ESEP)** offers an online partner-finding tool for VET and school education organisations. You can register your organisation on the platform in order to post partner-finding announcements and search through announcements made by other organisations: <https://school-education.ec.europa.eu/en/networking/partner-finding>
- **Training and Cooperation Activities** are regularly organised by Erasmus+ National Agencies. They include contact seminars, online events, and other partner-finding opportunities for Erasmus+ applicants and beneficiaries. Information about TCAs is available on relevant National Agency websites and the SALTO Education & Training TCA Resource Centre website: <https://salto-et.net/>
- **The Erasmus+ Project Results Platform** allows you to search for all accredited organisations and approved projects: <https://erasmus-plus.ec.europa.eu/projects>

Please describe your plans for Short-term learning mobility of pupils. If you plan to organise more than one activity of this type, your answers should cover all of the planned activities.

Please describe the planned content and profiles of participants in Short-term learning mobility of pupils.

The short-term learning mobility of pupils will involve a group of 15 upper secondary school students from the Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan, aged between 15 and 18 years. Participants will be selected from both the Scientific and Linguistic curricula through a transparent and inclusive selection process, taking into account motivation, interest in international experiences, language learning needs and personal development goals.

The planned mobility activities will be carried out in cooperation with a host school in Spain and will be integrated into an educational programme focused on language learning, intercultural exchange and active participation. Students will take part in collaborative learning activities, workshops, project-based tasks and group discussions aimed at developing communication skills, teamwork and critical thinking.

Particular attention will be given to the use of foreign languages in authentic contexts. Students will be encouraged to use English and, where appropriate, Spanish as languages of communication during classroom activities, group work and social interactions, thus improving their confidence and fluency.

In addition to school-based activities, the programme will include cultural and educational visits that will allow students to explore the local environment, compare different educational systems and reflect on European values such as cultural diversity, mutual respect and active citizenship.

Throughout the one-week mobility period, students will be supported by accompanying teachers who will ensure pedagogical supervision, daily monitoring and structured reflection activities. Pre-departure preparation and post-mobility follow-up activities will help students to reflect on learning outcomes and integrate the experience into their personal and educational pathways.

Please briefly describe the expected learning outcomes: what are the participants going to learn as a result of Short-term learning mobility of pupils.

Learning outcomes of mobility activities must be recognised after the activity, as defined in the [Erasmus quality standards](#). You can use [Europass Mobility](#) as a standardised recognition document, or you can apply a different instrument for the same purpose.

As a result of the short-term learning mobility of pupils, participating students are expected to improve their foreign language skills, particularly oral communication and confidence in using languages in real-life contexts.

Students will also develop intercultural competences by interacting with peers from a different cultural background and by reflecting on similarities and differences between educational systems and everyday life in Europe.

The mobility experience will support the development of transversal skills such as teamwork, adaptability, problem-solving and social competences, while strengthening students' autonomy, self-confidence and sense of responsibility.

Learning outcomes will be defined before the mobility and recognised after the activity through reflection and feedback tools, using Europass Mobility or equivalent instruments, in line with the Erasmus quality standards.

After the activities have taken place, how are you going to evaluate the learning outcomes of Short-term learning mobility of pupils.

After the mobility activities, learning outcomes will be evaluated through a combination of reflection activities, self-assessment tools and feedback questionnaires completed by participating students.

Teachers will support the evaluation process by observing students' participation, language use and engagement during and after the mobility. Group discussions and reflection sessions will allow students to analyse their learning experience and identify competences developed.

The results of the evaluation will be documented and used to recognise learning outcomes through Europass Mobility or equivalent instruments, in line with the Erasmus quality standards.

To which project objectives will Short-term learning mobility of pupils contribute?

Objective 1 : Strengthening linguistic, intercultural and pedagogical competences through European mobility , Objective 2 : Strengthening international cooperation and the European dimension of the school , Objective 3 : Promoting inclusive education and equal access to international opportunities , Objective 4 : Enhancing teachers' professional development through structured training in Finland

How did you find or how are you going to find hosting organisations for Short-term learning mobility of pupils?

What profile of organisations are you looking for to host these activities?

The hosting organisation for the short-term learning mobility of pupils will be identified through the school's existing international contacts and networks developed through previous participation in Erasmus+ projects as a partner and hosting organisation. In addition, the school will make use of European school networks, online platforms and professional contacts to identify suitable host schools in Spain.

The school is looking for a hosting organisation that operates in the field of upper secondary education and shares similar educational values, with particular attention to language learning, intercultural education and student-centred teaching approaches. The host school should have experience in welcoming international students and the capacity to organise structured learning activities integrated into the school environment.

Preference will be given to schools that promote inclusion, active participation of students and cooperation with teachers, ensuring a safe, supportive and stimulating learning environment. The hosting organisation is expected to collaborate closely with the sending school in planning, implementing and evaluating the mobility activities, in line with the Erasmus quality standards.

Courses and training

In this part of the application form, you need to create a list of participants and groups of participants that you plan to involve in Courses and training . These details will serve to assess your proposal and to calculate the needed budget.

The proposed planning should give a realistic representation of what you intend to implement. Of course, all plans must evolve. During implementation you will be allowed to change details such as destinations, the number of participants and duration of activities, as long as you continue working towards the same objectives.

The purpose of this section is to calculate the budget needed to implement your planned activities. You can use the button below to read the detailed funding rules and better understand the calculations below. The section introduces an important new concept: 'Mobility flow'. A mobility flow is a participant or a group of participants going to the same destination for the same duration of time and with same arrangements. If some participants going to the same destination need to have different arrangements (for example, different travel distance or mode of travel, different duration, Blended mobility activities, etc.) then you should split that mobility flow into two or more separate ones to be able to specify the differences. It is allowed to have more than one flow going to the same destination.

The information that you provide in this table will be automatically copied in the budget details. You can come back to this table at any point in case you want to change the data or separate a mobility flow into two.

Description (Courses and training)

Finding partner organisations for your mobility activities

Erasmus+ provides various tools and opportunities to find partners for your mobility activities:

- **European School Education Platform (ESEP)** offers an online partner-finding tool for VET and school education organisations. You can register your organisation on the platform in order to post partner-finding announcements and search through announcements made by other organisations: <https://school-education.ec.europa.eu/en/networking/partner-finding>
- **Training and Cooperation Activities** are regularly organised by Erasmus+ National Agencies. They include contact seminars, online events, and other partner-finding opportunities for Erasmus+ applicants and beneficiaries. Information about TCAs is available on relevant National Agency websites and the SALTO Education & Training TCA Resource Centre website: <https://salto-et.net/>
- **The Erasmus+ Project Results Platform** allows you to search for all accredited organisations and approved projects: <https://erasmus-plus.ec.europa.eu/projects>

Please describe your plans for Courses and training. If you plan to organise more than one activity of this type, your answers should cover all of the planned activities.

Please describe the planned content and profiles of participants in Courses and training.

For staff mobility activities related to courses and training, the Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan plans to identify suitable hosting organisations through a combination of Erasmus+ tools and existing professional networks.

The school will make use of the European School Education Platform (ESEP) to search for training providers and organisations offering high-quality structured courses relevant to school education. The partner-finding tool will allow the school to identify institutions with proven experience in teacher training, innovative pedagogical approaches and international cooperation.

In addition, the school intends to take advantage of Training and Cooperation Activities (TCAs) organised by Erasmus+ National Agencies and promoted through the SALTO Education & Training TCA Resource Centre. Participation in contact seminars and online events will support networking with European training providers and other schools, facilitating the identification of reliable partners and high-quality training opportunities.

The Erasmus+ Project Results Platform will also be used to identify organisations that have already been involved in approved Erasmus+ projects, ensuring the selection of experienced and recognised training providers. This approach will help guarantee the quality, relevance and reliability of the selected courses.

The project foresees the participation of six teachers in a one-week structured training course in Finland. Finland has been chosen for its well-known excellence in education and its focus on learner-centred, inclusive and competence-based teaching approaches. The planned course will focus on innovative teaching methodologies, active learning strategies, student well-being and inclusive education, with particular attention to practical classroom application.

Participants will be teaching staff from both the Scientific and Linguistic curricula, selected based on motivation, professional development needs and their potential to disseminate acquired competences within the school. The participating teachers will actively engage in workshops, collaborative activities and reflective sessions, allowing them to acquire concrete pedagogical tools and innovative practices.

After the training activity, teachers will share the acquired knowledge and skills through dissemination activities, peer-to-peer learning and integration into curriculum planning. In this way, the benefits of staff mobility will extend beyond the individual participants and contribute to the overall improvement of teaching quality and innovation within the school.

Please briefly describe the expected learning outcomes: what are the participants going to learn as a result of Courses and training.

Learning outcomes of mobility activities must be recognised after the activity, as defined in the [Erasmus quality standards](#). You can use [Europass Mobility](#) as a standardised recognition document, or you can apply a different instrument for the same purpose.

As a result of the training programme “Beyond Subjects: The Finnish Education Model for Key Competences”, participating teachers will enhance their competences in student-centred, competence-based and inclusive education.

Teachers will gain practical knowledge of the Finnish education model, with a focus on transversal key competences, interdisciplinary learning and student well-being. They will acquire pedagogical strategies that can be transferred to their own teaching practice across different subjects.

Learning outcomes will be defined before the mobility and recognised after the activity through certificates of attendance and Europass Mobility or equivalent instruments, in line with the Erasmus quality standards.

After the activities have taken place, how are you going to evaluate the learning outcomes of Courses and training.

After the training activities, learning outcomes will be evaluated through teachers’ reflective reports, self-assessment tools and feedback questionnaires.

Participants will document the competences acquired and reflect on how the new methodologies can be applied in their teaching practice. The evaluation will be supported by certificates of attendance and the completion of Europass Mobility or equivalent recognition instruments, in line with the Erasmus quality standards.

To which project objectives will Courses and training contribute?

Objective 1 : Strengthening linguistic, intercultural and pedagogical competences through European mobility , Objective 2 : Strengthening international cooperation and the European dimension of the school

How did you find or how are you going to find hosting organisations for Courses and training?

What profile of organisations are you looking for to host these activities?

The hosting organisation for courses and training activities will be identified through Erasmus+ tools and professional networks developed by the school. In particular, the Liceo Scientifico e Linguistico Statale “G. Marconi” of Milan will use the European School Education Platform (ESEP), the Erasmus+ Project Results Platform and information provided through Training and Cooperation Activities (TCAs) organised by National Agencies.

The school is looking for experienced training providers operating in the field of school education, with a strong background in teachers’ professional development and international training. Priority will be given to organisations offering structured courses focused on innovative, student-centred and inclusive teaching methodologies, with proven experience in working with international participants.

The selected hosting organisation is expected to ensure high-quality training content, qualified trainers and opportunities for active participation, reflection and exchange of good practices, in line with the Erasmus quality standards.

Budget

Budget summary

Activity type	Organisational support (EUR)	Individual support (EUR)	Travel (EUR)	Course fees (EUR)	Linguistic support (EUR)	Preparatory visits (EUR)	Inclusion support (EUR)	Total (EUR)
Short-term learning mobility of pupils	5 250,00	12 900,00	5 253,00	Not applicable	1 800,00	2 040,00	500,00	27 743,00
Courses and training	600,00	5 922,00	1 854,00	2 400,00	Not applicable		750,00	11 526,00
Total	5 850,00	18 822,00	7 107,00	2 400,00	1 800,00	2 040,00	1 250,00	39 269,00

Details

Activity type	Individual support for participants (EUR)	Individual support for accompanying persons (EUR)	Standard travel (EUR)	Inclusion support for participants (EUR)	Inclusion support for organisations (EUR)
Short-term learning mobility of pupils	9 900,00	3 000,00	5 253,00	0,00	500,00
Courses and training	5 922,00	0,00	1 854,00	0,00	750,00
Total	15 822,00	3 000,00	7 107,00	0,00	1 250,00

Organisational support

Organisational support covers various costs directly linked to the implementation of mobility activities and not covered by other cost categories..

This includes preparation (pedagogical, intercultural and other), mentoring, monitoring and support of participants during mobility, services, tools and equipment needed for virtual components in blended activities, recognition of learning outcomes, sharing results and making the European Union funding visible to the public.

Please keep in mind that organisational support covers costs incurred by both sending and hosting organisations (except in the case of staff mobility for courses and training). The grant should be shared between the two organisations according to their tasks and expenses.

Mobility flow ID	Activity type	Destination country	Number of participants	Number of accompanying persons	Organisational support unit cost (EUR)	Organisational support grant (EUR)
SHORT-01	Short-term learning mobility of pupils	Spain	15	2	350,00	5 250,00

Total				21	2				7 107,00

Individual support

Individual support covers costs of subsistence for participants and accompanying persons during the activity. Please note that in order for calculations to be completed, you need to specify your National Agency in section Context and you need to choose the destination country in section Activities.

Individual support can also cover subsistence costs for travel time before and after the activity. For more details, please refer to the Programme Guide.

Mobility flow ID	Activity type	Destination country	Number of participants	Duration (in days)	Number of accompanying persons	Duration for accompanying persons (in days)	Travel days	Individual support base rate for participants (EUR)	Individual support base rate for accompanying persons (EUR)	Individual support grant for participants (EUR)	Individual support grant for accompanying persons (EUR)	Total individual support grant (EUR)
SHORT-01	Short-term learning mobility of pupils	Spain	15	10	2	10	2	55,00	125,00	9 900,00	3 000,00	12 900,00
COURS-01	Courses and training	Finland	3	5	0	0	2	141,00	0,00	2 961,00	0,00	2 961,00

Total			21	20	2	10	6			15 822,00	3 000,00	18 822,00

Linguistic support

Linguistic support covers the costs of providing language learning materials and training to participants who need to improve the knowledge of the language they will use to study or receive training during their activity.

Linguistic support grants are mainly available in place of Online Language Support (OLS) when the appropriate language or level is not available. To better estimate the needs for your project, you can check the availability of courses for specific languages and levels: [here](#)

Mobility flow ID	Activity type	Destination country	Number of participants	Language	Number of participants for whom OLS is available	Linguistic support unit cost (EUR)	Linguistic support grant (EUR)
SHORT-01	Short-term learning mobility of pupils	Spain	15	English	3	150,00	1 800,00
Total			15		3		1 800,00

Course fees

Course fees cover enrolment fees for courses and training.

Mobility flow ID	Activity type	Destination country	Number of participants	Duration (in days)	Request maximum course fees	Total number of days for course fees	Course fees unit costs (EUR)	Course fees grant (EUR)
COURS-01	Courses and training	Finland	3	5	☒	15	80,00	1 200,00
COURS-02	Courses and training	Finland	3	5	☒	15	80,00	1 200,00
Total			6	10				2 400,00

Preparatory visits

You can set up a preparatory visit to your hosting partner before the mobility takes place.

However, please keep in mind the relevant provisions of the Programme Guide: preparatory visits must have a clear reasoning and must serve to improve inclusiveness, scope and quality of mobility activities. For example, preparatory visits can be organised to better prepare mobility of participants with fewer opportunities, to start working with a new partner organisation, or to prepare longer mobility activities.

You can receive funding for a maximum of three persons per preparatory visit.

Mobility flow ID	Activity type	Destination country	Number of participants in preparatory visits	Preparatory visit unit cost (EUR)	Preparatory visits grant (EUR)
SHORT-01	Short-term learning mobility of pupils	Spain	3	680,00	2 040,00
Total			3		2 040,00

Inclusion support

Inclusion support covers various costs related to the organisation of mobility activities for participants with fewer opportunities.

Support is provided in two forms: inclusion support for organisations and inclusion support for participants. Inclusion support for organisation is a fixed sum per participant intended to cover administrative and other minor costs. Inclusion support for participants covers 100% of any actual cost linked to the participants with fewer opportunities and their accompanying persons. For example, this can include hiring assistants or translators, as well as costs related to travel and subsistence if the standard grants for these categories are not sufficient to cover the costs. In the latter case, the full amount of travel and subsistence costs should be requested through Inclusion Support.

Mobility Flow ID	Activity type	Destination country	Number of participants in the mobility flow	Number of participants with fewer opportunities	Inclusion support for organisations (EUR)	Inclusion support for participants (EUR)
SHORT-01	Short-term learning mobility of pupils	Spain	15	4	500,00	0,00
COURS-01	Courses and training	Finland	3	3	375,00	0,00
COURS-02	Courses and training	Finland	3	3	375,00	0,00
Total			21	10	1 250,00	0,00

Exceptional costs

Exceptional costs may be claimed for costs linked to entry requirements for specific countries (including visas, residence permits, vaccinations, and medical certificates) and financial guarantee (if such a guarantee is requested by the National Agency).

Cost type	Activity Type	Mobility Flow ID	Number of participants in the mobility flow	Number of persons supported with this cost item	Description and justification of expenses (EUR)	Eligible costs (EUR)	Support Rate (%)	Eligible amount

☐ The National Agency has requested a financial guarantee.

Quality standards

Organisations implementing mobility activities must adhere to a common set of Erasmus quality standards. The standards exist to ensure good mobility experience and learning outcomes for all participants, and to make sure that all organisations receiving the Programme's funding are contributing to its objectives. In a mobility consortium, Erasmus quality standards apply to activities implemented by all beneficiary organisations: the coordinator and the consortium members.

The Erasmus quality standards are part of the Erasmus+ call for Key Action 1 projects. They are also presented below so you can read and easily access them again while writing your application. Where needed, appropriate application of Erasmus quality standards in the national context will be further interpreted by the relevant National Agency.

Please carefully read the Erasmus quality standards presented below and confirm your agreement.

I. Basic principles

- **Inclusion and diversity:** the beneficiary organisations must respect the principles of inclusion and diversity in all aspects of their activities. The beneficiary organisations must ensure fair and equal conditions for all participants.

Whenever possible, the beneficiary organisations should actively engage and involve participants with fewer opportunities in their activities. The beneficiary organisations should make maximum use of the tools and funding provided by the Programme for this purpose.

- **Environmental sustainability and responsibility:** the beneficiary organisations must promote environmentally sustainable and responsible behaviour among their participants. The beneficiary organisations should make maximum use of the funding provided by the Programme to support sustainable means of travel.
- **Digital education – including virtual cooperation, virtual mobility and blended mobility:** the beneficiary organisations should use digital tools and learning methods to complement their physical mobility activities, and to improve the cooperation with partner organisations. The beneficiary organisations should make maximum use of the digital tools, online platforms, and other opportunities provided by the Programme for this purpose.
- **Active participation in the network of Erasmus organisations:** one of the objectives of the Programme is to support the development of the European Education Area. Beneficiary organisations should seek to become active members of the Erasmus network, for example by hosting participants from other countries, or by taking part in exchanges of good practices and other contact activities organised by the National Agencies or other organisations. Experienced organisations should share their knowledge with other organisations that have less experience in the Programme by providing advice, mentorship or other support. Where relevant, beneficiary organisations should encourage their participants to take part in alumni activities and networks.

II. Good management of mobility activities

- **Core tasks - keeping ownership of the activities:** the beneficiary organisations must keep ownership of core implementation tasks and may not outsource these tasks to other organisations.

The core tasks include financial management of the programme funds, contact with the National Agency, reporting on implemented activities, as well as all decisions that directly affect the content, quality and results of the implemented activities (such as the choice of activity type, duration, and the hosting organisation, definition and evaluation of learning outcomes, etc.)

- **Supporting organisations, transparency and responsibility:** in practical aspects of project implementation, the beneficiary organisations may receive advice, assistance or services from other organisations, as long as the beneficiary organisations keep control of the content, quality and results of the implemented activities, as described under 'core tasks'.

If beneficiary organisations use programme funds to pay other organisations for specific implementation tasks, then the obligations of such organisations must be formally defined to ensure compliance with the Erasmus quality standards and protection of the Union funds. The following elements must be included in the formal agreement between the beneficiary and the service provider: tasks to be carried out, quality control mechanisms, consequences in case of poor or failed delivery, and flexibility mechanisms in case of cancellation or rescheduling of agreed services that guarantee fair and balanced sharing of risk in case of unforeseen events. Documentation defining these obligations must be available for review by the National Agency.

Organisations that assist the beneficiary with specific implementation tasks (on paid or voluntary basis) will be considered supporting organisations and must be registered in the official reporting tools. The involvement of supporting organisations must bring clear benefits for organisational development of the beneficiary organisation and for the quality of mobility activities.

In all cases, the beneficiary organisation will stay responsible for the results and quality of implemented activities, regardless of the involvement of other organisations.

- **Contributions paid by participants:** as a form of co-funding, the beneficiary organisation may ask participants in mobility activities for contributions to pay for goods and services necessary for the implementation of those activities. The size of the participants' contributions must remain proportional to the grant awarded for the implementation of the activity, must be clearly justified, collected on a non-profit basis, and may not create unfair barriers to participation (especially concerning participants with fewer opportunities). Additional fees or other participant contributions cannot be collected by supporting organisations or other service providers chosen by the beneficiary organisation.
- **Integrating results of mobility activities in the organisation:** beneficiary organisations must integrate the results of the implemented mobility activities (e.g. knowledge gained by staff in professional development) in their regular work, in order to benefit the organisation as a whole, its staff, and learners.
- **Developing capacity:** beneficiary organisations should use the programme funds (and organisational support in particular) in a way that gradually increases their capacity to work internationally on a sustainable, long-term basis. In a mobility consortium, all organisations should benefit in this way.
- **Regular updates:** beneficiary organisations must regularly encode the information about planned and completed mobility activities in the tools provided for this purpose by the European Commission.
- **Gathering and using participants' feedback:** beneficiary organisations must ensure that participants complete the standard report about their activities, as provided by the European Commission. The beneficiary organisations should make use of the feedback provided by the participants to improve their future activities.

III. Providing quality and support to the participants

- **Practical arrangements:** the beneficiary organisations must ensure the quality of practical and logistic arrangements (travel, accommodation, visa applications, social security, etc.). If these tasks are delegated to the participant or a service provider, the beneficiary organisation will remain ultimately responsible for verifying their provision and quality.
- **Health, safety and respect of applicable regulation:** all activities must be organised with a high standard of safety and protection for involved participants and must respect all applicable regulation (for example regarding parental consent, minimum age of participants, etc.). The beneficiary organisations must ensure that their participants have appropriate insurance coverage, as defined by the general rules of the Programme and the applicable regulation.
- **Selection of participants:** participants must be selected through a transparent, fair and inclusive selection procedure.
- **Preparation:** participants must receive appropriate preparation in terms of practical, professional and cultural aspects of their stay in the host country. The preparation should be organised in collaboration with the hosting organisation (and the hosting families, where relevant).
- **Monitoring and mentoring:** where relevant based on the format of the activity, the sending and hosting organisations must identify a mentor or a similar key person who will be following the participant during their stay at the hosting organisation and who will help them achieve the desired learning outcomes. Particular attention should be given to the introduction and integration of the participants at the hosting organisation, and to the monitoring of the learning process.
- **Support during the activity:** participants must be able to request and receive support from their hosting and sending organisations at any time during their mobility. Contact persons in both organisations, means of contact, and protocols in case of exceptional circumstances must be defined before the mobility takes place. All participants must be informed about these arrangements.
- **Linguistic support:** the beneficiary organisation must ensure appropriate language training, adapted to the personal and occupational needs of the participants. Where appropriate, the beneficiary organisation should make maximum use of the specific tools and funding provided by the Programme for this purpose.
- **Definition of learning outcomes:** the expected learning outcomes of the mobility period must be agreed for each participant or group of participants. The learning outcomes must be agreed between the sending and hosting organisations, as well as the participant (in case of individual activities). The form of the agreement will depend on the type of the activity.
- **Evaluation of learning outcomes:** learning outcomes and other benefits for the participants should be

systematically evaluated. Results of the evaluation should be analysed and used to improve future activities.

- **Recognition of learning outcomes:** formal, informal and non-formal learning outcomes and other results achieved by the participants in mobility activities must be appropriately recognised at their sending organisation. Available European and national instruments should be used for recognition whenever possible.

IV. Sharing results and knowledge about the programme

- **Sharing results within the organisation:** beneficiary organisations should make their participation in the Programme widely known within the organisation and create opportunities for participants to share their mobility experience with their peers. In case of mobility consortia, the sharing should take place in the whole consortium.
- **Sharing results with other organisations and the public:** beneficiary organisations should share the results of their activities with other organisations and the public.
- **Publicly acknowledging European Union funding:** beneficiary organisations should make their participation in the Programme known in their community and in the wider public. Beneficiary organisation also must inform all participants about the source of their grant.

Subscribing to Erasmus Quality Standards

To apply for a Key Action 1 mobility project, your organisation must subscribe to the quality standards described above and accept to be evaluated based on those standards. Please read the following statements carefully and confirm your agreement:

- ☒ I have read and understood the above quality standards
- ☒ I understand and agree that these quality standards will be used as part of the criteria for evaluation of my project at final report stage

Follow-up

What will your organisation do to contribute to the basic principles defined by the [quality standards](#) : inclusion and diversity, environmental sustainability and responsibility, digital education, and active participation in the network of Erasmus+ organisations?

The Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan will actively contribute to the Erasmus+ quality standards by promoting inclusion, sustainability, digital education and European cooperation.

Inclusion and diversity will be ensured through transparent and fair selection procedures, with particular attention to participants with fewer opportunities and the provision of appropriate support measures.

Environmental sustainability will be promoted by encouraging responsible behaviours, raising awareness on environmental issues and favouring sustainable travel options whenever possible.

Digital education will be supported through the use of digital tools for preparation, communication and follow-up activities, as well as for cooperation with partner organisations.

Active participation in the Erasmus+ network will be fostered by strengthening cooperation with European partners, sharing project results and promoting Erasmus+ opportunities within the school community.

Please describe your project team and the division of tasks in it. Who will participate in the project team – please mention the persons' roles, positions and expertise, not their names. How will the key project tasks be divided among the project team: selection of participants, preparation of participants, supporting participants during the activity, defining the learning programmes, recognition of learning outcomes, overall supervision and ensuring the respect of quality standards.

The project team will be composed of members of the school staff with specific roles and expertise in international projects and school management. The overall supervision of the project and compliance with Erasmus+ quality standards will be ensured by a project coordinator with experience in international cooperation and organisational management. A selection committee, composed of teaching staff, will be responsible for defining selection criteria and carrying out transparent and inclusive selection procedures for students and staff. Teachers involved in the project will contribute to the preparation of participants, providing pedagogical, linguistic and intercultural support before the mobility. During the activities, accompanying teachers and designated contact persons will support participants and monitor their learning progress and well-being. The definition of learning programmes and expected learning outcomes will be carried out in cooperation with hosting organisations. Recognition of learning outcomes will be ensured through reflection activities, documentation and Europass Mobility or equivalent instruments.

What will you do to integrate the results of implemented mobility activities in your organisation's regular work?

The Liceo Scientifico e Linguistico Statale "G. Marconi" of Milan will ensure that the results of the mobility activities are effectively integrated into the school's regular work, so that the benefits of the project extend beyond the direct participants. After the completion of the mobility activities, participating students and teachers will be involved in structured follow-up and reflection activities. Students will share their learning experiences with classmates through presentations, group discussions and classroom activities, fostering peer learning and increasing awareness of European mobility opportunities. Teachers who take part in staff mobility activities will present the acquired knowledge and methodologies during staff meetings, department meetings and internal training sessions. Innovative teaching approaches and pedagogical tools gained through the training course will be gradually integrated into lesson planning and classroom practice. The school will encourage collaboration among teachers to adapt and apply new methodologies across different subjects, promoting student-centred, inclusive and competence-based education. The results of the project will also be reflected in school planning documents and contribute to the ongoing development of the school's educational strategies, supporting long-term internationalisation and continuous improvement of teaching and learning.

What will your organisation do to share the results of its activities and knowledge about the Programme?

i. To share results within your organisation

The results of the mobility activities will be shared within the school through presentations, staff meetings and department meetings. Participating students and teachers will present their experiences and learning outcomes to classmates and colleagues, promoting peer learning and reflection. Teaching staff will share new methodologies and good practices acquired during mobility activities, encouraging their integration into everyday teaching and supporting the dissemination of Erasmus+ opportunities within the school community.

ii. To share results with other organisations and the public

The results of the project will be shared with other schools, organisations and the wider public through the school's website, social media channels and dissemination events. The school will present the project outcomes during meetings, local events and networking activities, promoting good practices and raising awareness of Erasmus+ opportunities. Project experiences and results will also be shared with potential partner organisations to support future cooperation at local, national and

European level.

iii. To publicly acknowledge European Union funding

The school will publicly acknowledge European Union funding by clearly displaying the Erasmus+ logo and related information on all project materials, the school website and communication channels. Participants will be informed about the source of the funding before and during the mobility activities. All dissemination actions, events and publications related to the project will explicitly mention the support of the Erasmus+ Programme, in accordance with the visibility and communication guidelines.

Application conditions

EU values

The Erasmus+ programme's implementation, and therefore, the programme beneficiaries and the activities implemented under the programme, have to respect the EU values of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities, in full compliance with the values and rights enshrined in the EU Treaties and in the EU Charter of Fundamental Rights:

- Article 2 of the TEU: The Union is founded on the values of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities. These values are common to the Member States in a society in which pluralism, non-discrimination, tolerance, justice, solidarity and equality between women and men prevail.
- Article 21 of the EU Charter of Fundamental Rights: 1. Any discrimination based on any ground such as sex, race, colour, ethnic or social origin, genetic features, language, religion or belief, political or any other opinion, membership of a national minority, property, birth, disability, age or sexual orientation shall be prohibited. 2. Within the scope of application of the Treaties and without prejudice to any of their specific provisions, any discrimination on grounds of nationality shall be prohibited.

☒ I confirm that I, my organisation and the co-beneficiaries (where applicable) adhere to the EU values mentioned in Article 2 of the TEU and Article 21 of the EU Charter of Fundamental Rights

☒ I understand and agree that EU values will be used as part of the criteria for evaluation of the activities implemented under this project

EU sanctions and restrictive measures

☒ I confirm that I/my organisation/project partner are NOT included on the list of persons/entities subject to EU sanctions [1]. I acknowledge that if I/my organisation/project partner is included on the list, the application will be rejected.

☒ I/my organisation/project partner are not established in Russia nor are any of our proprietary rights directly or indirectly owned for more than 50% by a legal person, entity or body established in Russia and therefore NOT subject to EU restrictive measures under Regulation (EU) 833/2014.

OR:

☐ I/my organisation/any of my project partners ARE established in Russia or any of the proprietary rights of my organisation or project partners are directly or indirectly owned for more than 50% by a legal person, entity or body established in Russia and therefore I/my organisation/project partner is subject to EU restrictive measures under Regulation (EU) 833/2014 and in order to be eligible, need to apply to the granting authority to obtain an exemption from restrictive measures under Article 5 I (2) e) of Regulation (EU) 833/2014, failing which the application will be rejected.

[1] As per EU Sanctions Map at <https://www.sanctionsmap.eu>. Please note that the EU Official Journal contains the official list, and, in case of conflict, its content prevails over that of the EU Sanctions Map.

Original content and authorship

☒ I confirm that this application contains original content authored by the applicant organisation.

☒ I confirm that no other organisations or individuals external to the applicant organisation have been paid or otherwise compensated for drafting the application.

Protection of personal data and other acknowledgments

Please read our privacy statement to understand how we process and protect [your personal data](#)

☒ I/my organisation acknowledge that the information concerning me/my organisation, the application and the related operational and financial capacity assessments, compliance with eligibility and exclusion criteria, and other relevant information, including previously funded projects, and, if the grant is awarded, information concerning the implementation of the project, and any monitoring thereof, can be made accessible to the authorised persons of the European Commission, EACEA and the National Agencies for the purposes of Programme implementation and protection of EU financial interests in accordance with the Financial Regulation in the context of selection and award, prevention of double funding, monitoring, and other instances in the context of supervisory controls and primary checks pursuant to Erasmus+/European Solidarity Corps Regulation.

Pre-submission checklist

Before submitting your application form to the National Agency, please make sure that:

- ☒ It fulfills the eligibility criteria listed in the [Programme Guide](#).
- ☒ All relevant fields in the application form have been completed.
- ☒ You have chosen the correct National Agency of the country in which your organisation is established. Currently selected NA is: IT02 - Agenzia Nazionale Erasmus + - INDIRE
- ☒ You have chosen the correct field for your organisation. Currently, the selected field is: School Education

The documents proving the legal status of the applicant must be uploaded in the Organisation Registration System, here: [Organisation Registration System](#) (for more details, see the Programme Guide - "Information for applicants").
